For information about new features and enhancements, see *What's New*.

Fixed issues

There are no fixed issues in this release of Operational Insights. Not all monthly releases include fixed issues.

Known issues

The tables in this section describe known issues for Operational Insights. Not all monthly releases include known issues.

Issue	Description
MDMN-171684	When you view the usage metrics of business applications or Reference 360, the Last Updated field displays the end time of the refresh MDM SaaS usage metrics job instead of the start time. This issue occurs regardless of whether the job succeeds or fails. (July 2025)

Informatica Global Customer Support
